Bay Area homeowners are making their gardens aesthetically pleasing, attractive to birds and butterflies, water-wise, and low maintenance by incorporating California native plants. Visit gardens landscaped with native plants on this **free** annual tour, now in its 13th year.

Over 50 gardens will be open for viewing, from town home gardens to acre lots, from newly planted gardens to established ones. The gardens are located all over the Santa Clara Valley and the Peninsula, so you won't have to go far to see one. Some gardens will feature **talks**, others will have **plants for sale**. Visit as many as you like — for inspiration, for photos, for meeting other garden enthusiasts.

Free admission • Plant Sales & Talks at select gardens • Register at www.gngt.org

Garden information, maps, and directions will become available to registrants the week of April 6. Registrations will be accepted until noon of April 19. For information, visit www.gngt.org, or email info@gngt.org.
